LOT 14 - One-Night at The Doctor's House

Description

The Doctor's House is a historic property located in Green's Harbour that was started more than half a century ago by a young doctor and his wife, both of whom had a talent for gardening and a love for animals.

The Doctor's House represents a unique approach to luxury, whereby the product skirts traditional notions of luxury and instead opts for a redefined version. This redefinition of the term is focused on offering a one-of-a-kind experience and doing it exceptionally well. The brand recognizes the legacy of the property it's situated on, as well as the storied and illustrious past of Newfoundland hospitality.

Enjoy a one-night stay up to the value of \$295
